DETAILED ACTION

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include character(s) mentioned in the description: There are no reference numbers or lead lines in the drawings. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following informalities: there are no reference numerals representing the elements in the drawings.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 1 – 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, It is not understood as to what a Neutral Tandem Network NTN) is. The examiner has searched EAST and no reference to NTN is found in the art. The description on page 16 – 17 of the instant application has not been helpful. This is complicated by the fact that no reference numerals were used in the drawings making the specification, at times, to understand.

Because of the many problems with the application a proper search could not be conducted at this time, however a quick search lead to a couple of references that appear to be pertinent.
